

Jordan Defense Shield Price List

How to Select Your Shield

1. Select your application: straight screen, L shaped screen, or U shaped screen.
2. Determine the full length (width) required.
3. Select a width that meets or exceeds your requirement.
4. Screen film is rolled around an end post to accommodate shorter distances.
5. Locate the height you require on the Stock Sizes Price List below.
6. Select whether you need a straight base or hospitality arch.

Considerations

1. 32" screen, when placed on a desk, will reach the same height as most office cubical partitions.
2. A 24" screen offers shielding between people when seated at a table, beside or across from each other.
3. An 18" screen is good to extend current partitions that may already be in place, such as between booths in a restaurant.
4. Multiple L or U shaped screens mounted on long or large multi person tables can divide side by side or opposed seating
5. Prices for screens include the two required end posts. L or U shaped shields require an added post for each inside corner.

Stock Sizes Price List

Width*	3'	4'	6'	8'	10'
Height					
18"	\$66	\$78	\$102	\$126	\$150
24"	\$78	\$94	\$126	\$158	\$190
32"	\$94	\$115	\$158	\$200	\$242
36"	\$102	\$126	\$174	\$222	\$270
40"	\$110	\$137	\$190	\$243	\$296
